## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4,6-9, drawn to encryption key transmission and device certification, classified in class 713, subclass 173.
- II. Claims 5,10, drawn to hardware management system, classified in class 709, subclass 223.

Inventions of claims 1-4,6-9 are related to as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. The encryption key transmission and device certification in claims 1-4,6-9 apart from being used with inventions of claims 5,10 in that it can be implemented in mutual device authentication method to protect its hardware from tampering. Invention II can be used in the field of computer network configuring and management. Because these inventions are distinct for the reasons given above and acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated as proper.
